

Applicant: John David Kraewell, Jr.
Application No.: 10/757,222

REMARKS/ARGUMENTS

After the foregoing Amendment, claims 9-39 are currently pending in this application. Claims 1, 2, 5, and 6 are currently canceled without prejudice. New claims 9-28 are added. The title is amended.

Request for Withdrawal of the Finality of the Office Action

The Applicant respectfully requests that the Examiner withdraw the finality of the Office Action mailed on May 30, 2008 because a Request for Continued Examination pursuant to 37 C.F.R. § 1.114 is filed along with this Reply.

Objections to the Specification

The Examiner objected to the specification because the title is not descriptive. The title is amended. The withdrawal of the objection to the specification is respectfully requested.

Claim Rejections - 35 U.S.C. §102

Claims 1, 2, 5 and 6 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 5,603,081 to Raith et al. (hereinafter Raith). Claims 1, 2, 5, and 6 are canceled. The 35 U.S.C. §102 rejection is therefore moot. Applicant respectfully requests withdrawal of this rejection.

Applicant: John David Kraewell, Jr.
Application No.: 10/757,222

New Claims

Neither Raith nor any other reference of record teaches or fairly suggests the claimed limitations. For example, claim 9 recites:

a plurality of circuit components configured to operate in a plurality of signal processing states, each of the plurality of signal processing states having a power consumption level for each of the plurality of circuit components on a call state basis; and

a power interface circuit coupled to the plurality of circuit components configured to provide the power consumption levels;

wherein at least one of the plurality of circuit components transitions among the plurality of signal processing states based on a time slot of a TDMA frame assigned to the TDMA wireless subscriber unit.

(Emphasis added.)

Claims 19 and 29 recite similar elements in a various format. Applicant respectfully submits that newly added claims 9-39 are patentable over the references of record.

Applicant: John David Kraewell, Jr.
Application No.: 10/757,222

Conclusion

If the Examiner believes that any additional minor formal matters need to be addressed in order to place this application in condition for allowance, or that a telephonic interview will help to materially advance the prosecution of this application, the Examiner is invited to contact the undersigned by telephone at the Examiner's convenience.

In view of the foregoing amendment and remarks, Applicants respectfully submit that the present application is in condition for allowance and a notice to that effect is respectfully requested.

Respectfully submitted,

John David Kaewell, Jr. et al.
